## TAX COMMISSION

Holds Brief Session Here

The session of the Provincial Tax Commission, held here on Saturday morning, was very much of a farce. The Commissioners proceeded to the Opera House as soon as they landed from the boat from the south, and commenced hearing evidence without delay. As no public notice had been given of the hour of sitting, only a bare half-dozen persons were in attendance, and the proceedings were over by 10:30 a.m., to the disappointment of a number of people who arrived at that hour to make a statement or to hear the evidence given by others. Adequate notice should have been given, and the session should have been held at a reasonable hour.

The Hon. Price Ellison, Minister of Finance, presided, and the other Commissioners in attendance were the Hon. A. E. McPhillips, President of the Council, and Mr. W. H. Malkin. Dr. Grey, secretary to the Commission, was also present, and Mr. F. M. Ward, stenographer. Mr. C. H. Lagrin, the other Commissioner, was absent, having gone on to Vernon.

The first witness—if the term may be employed—was Mr. W. J. Garraway, Reeve of Peachland, who spoke at some length. He favoured the principle of a poll-tax, provided that it was rebated when real estate or personal taxes were paid.

Mr. Roy Sweeney, Okanagan Mission, expressed the belief that the general feeling was against the levy of a poll tax on persons paying real estate taxes, but his personal opinion was that every person should pay at least \$3.00 for police protection, schools and other benefits.

Mr. M. Hereron complained that he was assessed higher than his neighbours. He had no complaint to make as to the amount of the assessment, but he thought it should be equitable all round. He would rather pay double his present taxes and have a rapid rate of improvement than slow progress. He gave it as his opinion that farmers who had to pay land and school taxes should not have to pay poll tax. Foreigners, such as Japs and Chinese, should pay double, as they took so much money out of the country, and people without property should pay poll tax.

The Hon. Mr. McPhillips examined Mr. Hereron at some length, entering into what appeared rather irrelevant details. His questioning was directed to endeavour to prove that the imposition of a \$3.00 poll tax generally worked a hardship on the labouring man, who required nearly all his earnings to support his family. He cited conditions in the Crow's Nest district, where the Commission had received sworn testimony that many of the coal miners were earning only \$78.00 per month, and that this amount was barely enough to keep themselves and their families.

Mr. Hereron bluntly stated that, in his opinion, a man who could not put something by out of his wages was no good to the country.

Mr. Malkin also took a hand in the examination, but his questions were also along the line of hypothetical cases rather than directed to elicit the actual experience of the witness, and it was difficult to see of what service the evidence obtained could be to the Commission.

Following the conclusion of Mr. Hereron's evidence, the chairman closed the proceedings with almost indecent haste, and the Commissioners departed by motor car for Vernon, where the last sitting was held on Monday.

The egg-laying competition inaugurated by the Vancouver Exhibition Association, and now conducted by the B. C. Poultry Association, under the supervision of the provincial government, was formally opened on Friday at Hastings Park. The competition is the first one of its kind to be held on the American continent to extend over a period of one year. It will close on October 19, 1912.

The province of British Columbia is determined to demonstrate that it is the banner potato growing country of the North American continent, and incidentally of the world. Judging by the exhibit now being packed for shipment to New York, to compete for the \$1,000 prize and Stillwell silver trophy at the American Land and Irrigation Exposition to be held in Madison Square Gardens next month, its claims will be made good. Already a hundred odd varieties of potatoes are gathered together at the packing centre, and others are on the way.

## CITY COUNCIL

\$27,000 Worth of Debentures Sold

The Council met yesterday morning with the Mayor and Aldermen Dalglish, Leckie Jones and Copeland in attendance.

The Mayor reported that the Finance Committee had accepted the offer of the National Finance Co., of Toronto, of \$26,486 for \$27,000 worth of debentures, being at the rate of about \$98 per \$100. It would be necessary to sanction the action of the committee by motion of the Council. This was accordingly done.

Dr. Boyce appeared before the Council and asked for a lease of the City wharf, on behalf of the Okanagan Lumber Co., in which he is interested. He said the wharf was only planked for half its width, and his Company, in return for a lease, would be willing to plank the remainder of it and also 70 feet at the outer end which would permit teams to turn round instead of having to back the whole length of the planked portion, as at present. The City would retain the right to use the wharf as now, and the Company would undertake to keep it in repair.

Ald. Jones said the utility of the wharf had been discussed at a meeting of the Board of Trade some time ago, and it was considered that it might be rendered of service in connection with trade with the west side of the lake, as at present there was no place where people could unload their produce when brought by water.

The Mayor suggested that the City might do the necessary work and allow equal privileges to all to use the wharf on payment of a small fee. He asked Dr. Boyce if such an arrangement would be satisfactory to him, to which the reply was the affirmative, provided the Okanagan Lumber Co could get the use of the wharf at any time they desired. The Mayor then promised that the alternative proposals would be considered in a committee and a decision given at an early date.

The following letter was read from the Kelowna Land & Orchard Co., Ltd.:

"Kelowna, 23rd Oct., 1911  
"The City Clerk,  
"Kelowna.

"Sir,—  
"It is a matter of regret that we have again to complain that the City Scavenger is not observing the terms of the lease of the city nuisance ground as defined between this Company and the Corporation. The conditions of the lease are:

"That the City shall cause its agents, servants or workmen to completely burn up or bury, or have completely burned up or buried, all refuse, night soils, garbage and other matter placed upon the said lands."  
"We understand the condition in which this land is at present, as reported by the acting Manager, is an absolute scandal and a positive danger to the general health of the community.

"We are, Sir,  
"Yours faithfully,  
"THE KELOWNA LAND & ORCHARD CO., LTD.,  
"Per M. Graham Gorrie, Secy."

The Mayor held that the Company were quite justified in writing the letter, and he considered that the sooner a new scavenger could be obtained the better, as the present incumbent of the position was not doing his work satisfactorily in any respect.

The aldermen agreed with the Mayor's remarks, and it was decided to take steps to make a change.

Completing a transaction in connection with the acquirement of land for the extension of St. Paul St., it was resolved that the sum of \$250 be paid to Mr. W. C. Cameron, as per agreement with the City, also that the expenses of survey and registration be paid by the City.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct:

C. P. R., freight on steam trap	\$ 3.30
G. W. Pickering, special police duty	27.00
K. Smith, 3 days' work as lineman helper	9.00
Dr. Keller, rent of Council Chamber, Sept.	15.00
Paysheet, work on streets, Oct. 6-21	206.00
Northern Electric & Mfg. Co., 215 lbs. twine	44.08

The Mayor submitted to his colleagues a letter as a sample of many which he received complaining in regard to having to pay the gross

We wish every woman in Kelowna would come and see the handsome New Coats, Suits, Skirts, Waists, etc., now on display here

## We Are Confident

## RIFLE ASSOCIATION

Weekly Practice

Dull light and a variable wind seriously affected most of the scores at the 600 yards on Thursday, and the aggregates suffered consequently. With only 25 at 600, Mr. Conway shot splendidly at the other ranges, putting on a possible at 500 and a "near possible" at 200, and his range aggregate of 94, in the circumstances, was a very creditable performance. Mr. Symonds also pulled up his aggregate by a 34 at 200. The light failed rapidly at 200 after the first pair, Messrs. Conway and Symonds' shot, accounting probably for the "tail" to the score of Mr. Allan, who did well to pick 32 out of the approaching twilight.

### Aggregate

J. R. Conway 94, A. Symonds 90, G. C. Rose 88, T. Allan 75, G. N. Kennedy 60.

To-day's shoot will be the last of the weekly practices for the season, but it is hoped, weather permitting, to have a final field day on Monday next, being Thanksgiving Day, with an all-day shoot, commencing at the 200 yards at about 9 a.m. The three ranges will be shot over in the morning, and firing will be resumed at the 600 after lunch, which each rifleman will provide for himself. If possible, a few prizes will be arranged for, but the main object of the shoot is to give another opportunity to members to shoot who have not yet fired their stipulated number of rounds.

Those intending to shoot are requested to hand in their names to the Captain, G. C. Rose, "Courier" office, not later than Friday evening.

water and light rates instead of the nett, when too late to get the discount. About half the time devoted by the Mayor to the City's service, he said, was taken up with such matters and other "kicks," including those of people who had been fined for riding bicycles on the sidewalks.

Council adjourned until Tuesday, Oct. 31st, at 10 a.m.

## LODGES

**A. F. & A. M.**  
St George's Lodge,  
NO. 41.  
Regular meetings on Fri-  
days, on or before the full  
moon, at 8 p.m. in Ray-  
mer's Hall. Sojourning  
brethren cordially invited.

**GEO. C. ROSE, M. A.**

SUBSCRIPTION RATES

(Strictly in Advance)

To all persons in Canada and all parts of the  
British Empire: \$1.50 per year. To the United  
States and other foreign countries: \$2.00 per  
year.

News of social events and communications in  
regard to matters of public interest will be  
gladly received for publication, if authenti-  
cated by the writer's name and address, which  
will not be printed if so desired. No  
matter of a scandalous, libellous or impertinent  
nature will be accepted.

To ensure acceptance, all manuscript should be  
legibly written on one side of the paper only.  
Typewritten copy is preferred.

The COURIER does not necessarily endorse the  
sentiments of any contributed article.

## Advertising Rates

Classified Advertisements—Such as, For Sale, Lost  
Found, Wanted, etc., under heading "Want  
Ads." First insertion, 10c per line; Minimum  
charge, 25 cents per line; Additional insertion, 5 cents  
per line; Minimum charge, 15 cents.

Land and Timber Notices—30 days, \$5; 60 days, \$7.

Legal and Municipal Advertising—First insertion, 12c  
per line; each subsequent insertion, 8c per  
line.

Reading Notices Following Local News—Published  
under heading "Business Locals," 15c per line;  
first insertion, 10c per line; each subsequent  
insertion, 5c per line; Minimum charge, 50c;  
each subsequent insertion, 25c.

Transient and Contract Advertisements—Rates ac-  
cording to size of space taken.

Contract advertisers will please notice that all  
changes of advertisements must be handed  
to the printer by Tuesday noon, otherwise  
they cannot be inserted in the current week's  
issue.

THURSDAY, OCTOBER 20, 1911.

## The Disposal of Sewage

(B. C. Building News)

The problem of sewage disposal is  
encountered at every residence, pub-  
lic school and institution outside the  
city, and by many inside the city.  
Villages and towns are often with-  
out any disposal whatever, and even  
cities have systems which are worth-  
less. And so it happens that the  
problem is well nigh universal. As a  
result typhoid fever and other filth  
diseases flourish everywhere. A large  
number of people employ the primi-  
tive vault, many the cesspool, and a  
few the so-called "septic tank." When  
possible, drains carry it into running  
streams, or lakes. Ragatly under-  
stood, one is about as bad as another.  
One poisons the lakes or streams  
which should be kept pure for regu-  
lar or emergency use of those who  
need the water. The other more or  
less permanently poisons the earth and  
the underground water supply, both  
of which, on the highest consideration  
should be kept as free as possible  
from contaminations. When sewage  
is deposited a few feet below the  
surface, it may live for ever. Excava-  
tions in old Babylonia have uncov-  
ered fifth forty-five hundred years  
old.

It cannot be too strongly empha-  
sized that the septic tank alone un-  
der no circumstances effects more  
than a 30 per cent. purification, and  
usually it is less than 20 per cent.  
But it does perform the necessary  
office of liquification, and if the tank  
is properly constructed, it is possible  
to so treat the liquid effluent that it  
becomes as pure as ordinary good  
drinking water. But if the tank is  
not properly constructed, the effluent  
cannot be so successfully treated by  
any known means. It can easily be  
too large or too small, the proper  
dimensions being a matter of sound  
engineering judgment depending on  
local conditions. The liquification is  
due to bacterial action without at-  
mospheric oxygen. It is a fermenta-  
tion which develops when sewage has  
been kept from the air for a certain  
length of time. If underdone or over-  
done, fine results are impossible.

To accomplish purification, the ef-  
fluent should be aerated, and must be  
subjected to a further bacterial action  
with atmospheric oxygen. This pro-  
cess calls for filter beds. These filters  
are of different designs, known as in-  
termittent sand, contact, percolating  
and combinations thereof, depending  
on the character of the sewage to be  
dealt with, the outlet, and general  
surroundings. However, it is always  
possible to do it well at reasonable  
expense. Residential systems  
can usually be installed at a very mo-  
dest outlay and be entirely conceal-  
ed from view within very narrow li-  
mits. In view of these facts it is de-  
plorable that these plague spots are  
not prohibited by law, and the public  
compelled to promote sanitary con-  
ditions. Some of the eastern and cen-  
tral states are making substantial  
progress, and the sooner the Pacific  
Northwest makes a start, the bet-  
ter it will be for all future. The  
state board of health in Minnesota,  
for instance, has been given authority  
by the legislature and its first sub-  
stantial move was to prohibit the  
emptying of sewage into any of the  
rivers or lakes within the state. Other  
regulations are following, and it  
is hoped that ultimately even the iso-  
lated farm houses in the country will  
be compelled to provide proper drain-  
age and sewage disposal.

## FOOTBALL

Kelowna, 5; The Mission, 0.

In the first Association football  
match of the season, played in the  
Park on Saturday afternoon, the Ke-  
lowna team scored a decisive victory  
over Okanagan Mission to the tune  
of 5 goals to 0. The Missionites  
were short two men, but obtained  
the services of two town players. Mr.  
J. Finch made an efficient and vigi-  
lant referee.

Kelowna opened the game with  
continuous pressure on the Mission  
goal, and a hot shot from the left  
wing registered first blood for the  
town. Mission came away with a  
rush from the kick-off, but a shot  
by Meyrick went wide. Kelowna then  
took charge of the ball, and a cor-  
ner was secured, but without result.  
Play continued in front of the Mis-  
sion goal and another corner failed  
to yield a point. The Mission de-  
fence was good, but their forward  
line was weak and lacking in com-  
bination and shooting power. Ke-  
lowna kept up the attack, and a pro-  
longed rally in front of the Mission  
goal finally produced a second point.  
The Mission made another spasmodic  
break which ended in a rather fee-  
ble shot which missed the Kelowna  
citadel. Kelowna transferred the  
play once more to their opponents'  
end by long kicking and Osborne,  
in goal, made a clever save. Follow-  
ing a free kick, Kelowna put on  
strong pressure, and scored their  
third point. Mission, following their  
practice of asserting themselves on  
the kick-off, made their most deter-  
mined effort of the whole game, but  
a good shot by Barney went past.  
Keeping it up, Barney had another  
try but failed to connect, and the  
ball was once more transferred to  
the Mission end, where Osborne a-  
gain made a good save.

Half-time brought no change in the  
Mission fortunes as Scholl soon  
scored for Kelowna and came within  
an ace of repeating the trick a little  
later. Kelowna kept pegging away  
for a long time at the Mission de-  
fence, but were unable to break  
through it, and the Mission forwards  
had a chance to score but missed.  
A corner, however, was secured, but  
nothing came of it, and back the  
ball travelled again to the Mission  
end, a good hard shot for goal go-  
ing over the bar. Another shot went  
past, and at last a corner was ob-  
tained but Osborne's excellent work  
saved the point.

Yet another shot failed, and then  
Mission took the ball in charge, but  
without success, a strong shot going  
high. Another good shot was saved  
by the Kelowna goal-keeper, and a-  
way the ball travelled to the Mis-  
sion country. Kelowna obtained a  
corner, from which their fifth and  
last goal was scored with a low shot.  
The Mission will have to strength-  
en their team considerably before  
they can hope to obtain their re-  
venge.

The 1912 Dry Farming Congress  
will be held in Lethbridge.

Rt. Hon. Winston Churchill, Home  
Secretary, and Rt. Hon. Reginald Mc-  
Kenna, First Lord of the Admiralty,  
have exchanged portfolios, and several  
other changes of less importance  
have taken place in the British cabi-  
net.

Detective Campbell of the Vanco-  
uver police force, who shot and killed  
a youth named H. Webb last week,  
has been acquitted by a coroner's  
jury of all blame. Webb was not ar-  
rested but ran when the officer took  
him into a side street to question  
him. A large quantity of stolen  
goods was found in Webb's room by  
the police.

As the result of an accident at  
the Canadian lock at Sault Ste. Mar-  
ie, last week, the big freighter Em-  
peror, the largest Canadian boat on  
the Great Lakes, was sunk at the  
lower entrance to the Canadian lock,  
and now rests in thirty feet of wa-  
ter at a point some 450 east of the  
lower gates, completely blocking na-  
vigation.

A commission will be appointed by  
the government to make a thor-  
ough investigation of the business  
transactions of its predecessors. The  
Liberals were in power for fifteen  
years and records of all their dealings  
are now in the hands of the Conser-  
vatives. The investigation will in-  
clude fourteen departments of the  
government and will require about  
two years.

The last rail on the Canadian Pa-  
cific Railway Co.'s new grain route  
from Victoria Harbour to Bethany  
was laid on Thursday. The comple-  
tion of this line by the Canadian  
Pacific is of singular importance. It  
will have to play an important part  
in the transportation of the grain  
crops of the West to Montreal and  
the east. The grain at present is  
brought from Port William and Port  
Arthur either all the way by the  
Great Lakes or via Owen Sound and  
Toronto. When this new line is o-  
perated a new alternate route will  
be offered. The grain can be for-  
warded from the head of the Great  
Lakes by steamer to Victoria Har-  
bour on the Georgian Bay, the West-  
ern terminus of the line, and from  
there by rail to Montreal.

## THE CENSUS

B. C. Doubles Her Population

The first official statement of the  
census was given out at Ottawa last  
week, although a few returns have  
not yet been received from remote  
districts. The result shows a total  
population of 7,081,860 as compared  
with 3,571,315 in 1901, an increase  
of 1,710,554. While the total was  
confidently expected by the Census  
and Statistics Bureau to reach 8,-  
000,000, the increase over 1901 is  
fairly satisfactory, although various  
cities and districts are complaining  
of wholesale omissions by the enu-  
merators and are, in many cases, pre-  
paring to conduct a census on their  
own account.

The figures for the respective pro-  
vinces are:—

	1911	1901
Alberta .....	372,919	73,022
British Columbia .....	362,768	178,657
Manitoba .....	454,691	255,211
New Brunswick .....	351,815	311,120
Nova Scotia .....	461,847	459,674
Ontario .....	2,519,902	2,182,947

Prince Edward Island is the only  
province to show a decrease.

Amongst the towns of 5,000 and  
over, Charlottetown, P. E. I., and  
Nelson, B. C., alone show a decrease.

The most interesting figures a-  
mongst the towns and cities are:—

	1911	1901
New Westminster .....	13,394	6,499
Nelson .....	4,476	5,273
Prince Rupert .....	4,771	—
Vancouver .....	100,323	27,010
Vancouver, N. ....	7,781	—
Vancouver, S. ....	16,021	—
Victoria .....	31,620	20,816
Edmonton .....	24,882	2,626
Calgary .....	43,736	4,097
Lethbridge .....	8,048	2,072
Medicine Hat .....	5,572	1,570
Strathcona .....	5,580	550
Moose Jaw .....	13,824	1,558
Prince Albert .....	6,254	1,785
Regina .....	30,210	2,249
Saskatoon .....	12,002	113
Brandon .....	13,837	5,620
Winnipeg .....	135,430	42,340
Fort William .....	16,498	3,633
Port Arthur .....	11,216	3,214
Ottawa .....	86,340	59,928
Toronto .....	376,240	208,040
Montreal .....	466,197	267,730
Charlottetown .....	11,198	12,080

The unit of representation, which  
is arrived at by dividing the popu-  
lation of Quebec by 65, is 30,780. On  
this basis, the representation of  
British Columbia in the House of  
Commons will increase from seven  
to twelve members; Alberta from  
seven to twelve; Saskatchewan from  
10 to 15; Manitoba from 10 to 15.  
On the other hand, the representa-  
tion of Ontario will decrease from  
86 to 82; Nova Scotia from 18 to  
16; and Prince Edward Island from  
four to three.

The next parliament will contain  
232 members, an increase of 11 as  
compared with the present house.

## "Madame Sherry"

Because everyone all over the  
country is humming, singing or  
whistling some numbers of the score  
of the big sensational musical suc-  
cess, "Madame Sherry," the impres-  
sion is current in some quarters that  
the production's charm is in greater  
part musical. Report says that the  
musical qualities of the play are no  
less engaging than its score. Mainly  
the thread of musical and other inci-  
dents of this musical success con-  
cerns a young New York unmarried  
man about town, sewing his wild  
oats on money sent him by an un-  
cle, who believes his nephew mar-  
ried and the father of two children.  
The uncle unexpectedly pays a visit  
to the studio of the nephew, who to  
support his story of domesticity, is  
forced to gather unto himself a fam-  
ily. He presses his very unpatrician  
housekeeper into service to pass as  
his wife, and gets his own sweet-  
heart to pass as one of his children  
and an adult guest in his home to  
answer as his son. It is from the  
comic embarrassments growing out  
of this situation that the fun of the  
piece begins. Of course attendant  
misadventures consequent upon the  
first deception follow one another  
throughout the play. The main love  
interest is introduced at the very  
outset, with the arrival of the un-  
cle, who brings with him a relative  
in a young maid just out of a con-  
vent. It develops that the sweet-  
heart of the young man about town  
turns fickle and falls into love with  
the guest passing as her brother, a  
plight that opens the way for the  
mischievously scheming nephew and  
the visiting convent girl to become  
sweethearts, which they do in the  
oddest way. Incidentally, it is the  
love of the convent girl and the ne-  
phew that, introduced in the play  
as a love theme, is the air of the  
production, "Every Little Movement  
Has a Meaning All Its Own," a song  
hit all over the world.—Adv.

Truancy, even among the girls, is  
epidemic in the New Westminster  
public schools, and the trustee board  
is taking steps to secure the prose-  
cution of offenders.

## Concrete Work in Freezing Weather

UNTIL a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set," it will not be injured, but if the freezing takes place after the "setting" action has started up, the concrete is likely to be damaged when it thaws, owing to the expansion of the melting water forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below, and secondly, you must protect the concrete after it has been placed in the "forms."

### PREPARATION OF MATERIALS.

Concrete will, on its own account, develop a certain amount of heat in

FIG. 1. SHOWING SIMPLE METHOD OF WATER HEATING.

the "setting" process. But in cold weather, some outside assistance, in the form of artificial heat, is necessary. The best way to develop this artificial heat is to warm the materials before mixing. This shortens the time that it takes the concrete to "set" and lengthens the time necessary to bring it to the freezing point. Bear in mind that the less water used, the quicker concrete "sets." Therefore, it is advisable to use as little water as possible in the mixing during cold weather.

### HEATING WATER.

A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig. 1.) A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done by taking a log or fence-post about the size of the coil and bending the pipe around it. This method prevents the pipe

pipes, and will soon thaw out and become heated.

In very cold weather, the cement may be heated by laying the bags on top of the sand, but this is not absolutely necessary, as the cement itself must be kept dry until used, whether the weather be hot or cold.

### TEMPERATURE REQUIRED.

Materials should not be heated to too high a temperature. A good way to judge the proper amount of heat is to make them just hot enough to be comfortable to touch. Care should be taken not to use any frozen lumps of sand.

### PROTECTING CONCRETE IN POSITION.

After the concrete has been placed in "forms" it should be protected so as to keep the heat in as long as possible. This is more essential in thin structures than in massive walls and foundations; for the latter will hold their own heat longer on account of their thickness.

Wooden "forms" are non-conductors, and will retain the heat in the concrete up to a certain point, but the concrete should be protected on top by a covering of canvas or

heavy paper, with a layer of ten or twelve inches of manure on top of this. Straw will also answer the purpose. If manure is used, care should be taken to prevent it from coming in contact with the concrete, as it will discolor it, and possibly even seep through sufficiently to weaken the structure.

### PROTECTING THIN STRUCTURES.

In the case of thin walls where extra cold weather calls for addition-

FIG. 4. PAPER TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM FROST.

al protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4,) thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

from "buckling" and makes the coils more regular in size.

Where concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

FIG. 3. SHOWING HOW MATERIALS MAY BE HEATED BY MEANS OF A FIRE IN AN OLD STOVE-PIPE.

### HEATING SAND AND STONE.

Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the cinders are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove

## Municipal Voters' List 1912

NOTICE is hereby given that the Voters' List of the City of Kelowna for the year 1912 is being prepared. The following are the qualifications required for Municipal Voters:

1. AS AN OWNER. Any male or female British Subject of the full age of twenty-one years possessing an estate for life or of inheritance (in possession) in lands within the corporate limits of the City, provided such person is the registered owner of said estate and provided such estate is of the assessed value of not less than One Hundred Dollars.
2. AS A LICENCE HOLDER. Any male or female British subject of the full age of twenty-one years who is the holder of a Trade Licence, the annual fee for which is not less than Five Dollars.
3. AS A HOUSE-HOLDER. Any male or female British subject of the full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding-house, or any portion of a dwelling-house, tenement, hotel or boarding-house, who has been a resident of the City from the First Day of January of the current year, and who has paid directly to the City all rates, taxes and assessments which are not chargeable on land, which rates, taxes or assessments so paid amount to not less than two dollars, due to the

City for the current year, other than water rates or taxes, or licence fees for dogs.

Licence-holders and House-holders must, during the month of October, 1911, make and cause to be delivered to the City Clerk a statutory declaration which must be filed within forty-eight hours after same is made. No declaration can be filed after 5 p.m. on Tuesday, 31st October, 1911.

Forms of declaration can be obtained from the undersigned.  
G. H. DUNN,  
City Clerk.

Kelowna, B. C.,  
October 11th, 1911. 11-3

### WATER NOTICE

I, John E. O. Robinson, of Okanagan Mission, by occupation a farmer, give notice that I intend on the 16th day of November next, at 11 o'clock in the forenoon, to apply to the Water Commissioner at his office at Fairview for a licence to take and use Three cubic feet of water per second from Saw Mill Creek, a tributary of Okanagan Lake.

The water will be used on S. E. ¼ Sec. 24, T. 28, for irrigation.  
Signature—  
J. E. O. ROBINSON.  
Dated this 10th day of October, 1911. 11-5

W. P. Gamble, a sleeping car porter of the C. P. R. service, has been sentenced to two years' penitentiary imprisonment for thefts from passengers.

### WATER NOTICE

I, Harriette E. Cather, of Kelowna, B. C., widow, give notice that I intend, on the 17th day of November next, at 11 o'clock in the forenoon, to apply to the Water Commissioner at his office at Vernon, B. C., for a licence to take and use four (4) cubic feet of water per second from springs situated on a small creek about 300 feet south of the south bank of Mission Creek, flowing into same 1,300 feet above the main road bridge from Kelowna to South Okanagan.

The water will be used on S. E. ¼ Sec. 8 and S. W. ¼ Sec. 8, Township 26, for irrigation.

HARRIETTE E. CATHER.  
Dated this 16th day of October, 1911. 12-5

### WATER NOTICE

I, A. B. Carle, of Medicine Hat, Alta., by occupation a farmer, give notice that I intend, on the 10th day of November next, at 11 o'clock in the forenoon, to apply to the Water Commissioner at his office at Vernon, B. C., for a licence to take and use One cubic foot of water per second from an unnamed spring.

The water will be used on Lots 5 and 6 in the Carle sub-division of the N. ¼ of Sec. 23, T. 26, for irrigation.  
Signature—  
A. B. CARLE.  
By his Agent, R. Lambly.  
Dated this 5th day of October, 1911. 11-5

## NEWS OF THE WORLD

Jem Driscoll and Owen Moran will shortly battle for the feather-weight championship of England and a purse of \$15,000.

Eugene Ely, the American aviator, fed with his machine at Macon, Ga., last Thursday, and was instantly killed.

Another terrific storm swept the west coast of Mexico last week and much damage to wharves and shipping is reported.

The Nobel prize in medicine has been awarded to Prof. Alval Guteland, of Upsala University, Sweden, for research work in dioptries in connection with his study of the eye.

"Old Bill" Miner, the famous train robber, escaped from the prison farm in Milledgeville, Ga., last week, and up to date the police have been unable to pick up his trail. He is supposed to be heading toward B. C.

The "Chronicle's" Salonika correspondent says that serious fighting has taken place between Turkish and Bulgarian troops on the frontier. The conflict lasted three hours and the losses on both sides are reported to have been heavy.

A colossal equestrian statue of Lord Kitchener of Khartoum, the first monument ever raised to him, is being cast at a London foundry. When completed it will be sent to India, where it will be erected upon the Maidan, the magnificent park in Calcutta.

The port of Benghazi, Tripoli, was bombarded by an Italian squadron under Rear Admiral Aubrey, last Friday, and formally occupied by 4,000 troops. The Turks made a stubborn resistance. On the same day the Italian troops in the city of Tripoli suffered a reverse. The casualty list was heavy.

The foreign commerce of Chile has increased from \$165,638,961 for 1905 to \$220,410,099 for 1910, of which imports made the greatest gain—\$30,744,671 in six years, or more than 53 per cent. The record imports for 1910 were not the result of any boom or abnormal condition but a revival of the natural industrial advancement of the country.

The rebel forces in China are apparently triumphing all along the line. They are reported to have gained control of the province of Shan Tung, which is 65,000 square miles in extent, and contains 30,000,000 inhabitants. Fierce fighting is going on in the vicinity of Hankow. Japan is preparing to land an army corps to protect foreign interests, and a large U. S. fleet has gathered at the mouth of the Yangtze Kiang. The crisis may come at any moment.

The Berlin conference of representatives of England, France, Germany and the United States over the unification of China's currency has been highly successful. A statement regarding the \$50,000,000 loan will be issued in a few weeks. It is planned to unify the coinage of all the Chinese provinces, making the pieces of money practically the same as in this country, except that there will be no quarters. Twenty-cent pieces will take their place, and there will also be one-cent pieces.

Every little bit added to a little bit makes a little bit more. When Germany has added her slice of the French Congo to her present colony of Kameroun, immediately adjoining it on the north, it will dawn upon the world that the Kaiser is going to have a potent voice in African affairs. When she has thrown her railroad across the continent from German East Africa to her holdings on the west coast, her strong hand will further appear. The Cape to Cairo road may yet be overshadowed by German enterprise.

An interesting discussion is going on in military circles as to how the Turks will be likely to treat the Italian military aviators if the latter fall into their hands. It is recalled that the passengers of five French balloons captured by the Prussians in 1870, were considered spies by Bismarck. In the present case the aviators wear military uniforms, and do not conceal their identity in reconnaissance of the enemy's positions. According to the Italians think that if captured the aviators should be accorded the protection of prisoners of war.

Leaders of the shipping trade of Australia are awakening to the necessity of asserting themselves in the Pacific. During the past ten years the foreign shipping trade has grown enormously as the result of the subsidies paid by European governments. This trade has been taken away from the Commonwealth and Australian shipowners have become alarmed at the losses they have suffered. Strong representations are now being made to the federal government to remove the disabilities under which local shipping at present labours. It is thought that with fair opportunities the Australian owners could regain their lost prominence.

## WATER NOTICE

We, the Belgo-Canadian Fruit Lands Company, of Kelowna, by occupation a Land Company, give notice that we intend on the First Day of December next, at eleven o'clock in the forenoon, to apply to the Water Commissioner at his office at Vernon, for a licence to take and use two cubic feet of water per second from the North Fork of Mission Creek, a tributary of Mission Creek.

The water will be used on Township 27, N. 1/2 Sec. 7, N.W. 1/4 Sec. 8, N. 1/2 Sec. 9, W. 1/2 of N.W. 1/4 Sec. 10, S.W. 1/4 Sec. 15, S. 1/2 Sec. 16, Secs. 17, 18, 19; Township 26, E. 1/2 Sec. 11, Secs. 12, 13, 14, E. 1/2 Sec. 23, W. 1/2 Sec. 24, all in Osoyoos Division of Yale District, for domestic purposes.

BELGO-CANADIAN FRUIT LANDS COMPANY,

F. E. R. Wollaston, Secretary.

Dated this 23rd day of October, 1911. 13-4

The Belgo-Canadian Fruit Lands Company of Kelowna, B. C., registered the 20th day of April, 1909, "Companies' Act, 1897."

The objects for which the Company has been established and registered are—

All commercial, industrial, mining, agricultural and land operations in connection with lands and other real estate, situate in British Columbia and Canada in general, also all that directly or indirectly pertains to such or which could prepare, facilitate, support or develop, the objects of the Company, including particularly: the purchase and rent of real estate of any nature whatever, the improvement of said real estate and the reselling of same either in blocks or in lots, for cash or on terms per annuities, or otherwise, its exchange or lease, and in a general way all enterprises having for object to build or improve real estate, the manufacture and commerce of fertilizers, the commerce of all products of the soil, the distribution and sale of water and light, the operation of all industries, the purchase, the sale and transformation of all agricultural products, the enterprise, or the participation in all enterprises of railroads and tramways, and of all improvements of the soil of the lands belonging to the Company or to other parties by means of irrigation, drainage, dyking and all other means whose success might contribute to the performance of the company's objects such as have been set forth here above in a way which however is not limited.

The Company may participate to the organization or to the work of all companies having objects similar to theirs either by subscribing a portion of the capital or other manner. The Company may establish all stores or interest themselves in any enterprise having a similar object.

Striking evidence of the progress of Western Canada which has been the outstanding feature of the development of the Dominion during the past decade is furnished by the fact that, since 1901, Winnipeg has moved up from being the sixth largest city in Canada to the third place; Vancouver, from the ninth to the fourth place; and Calgary, which was away down in the list of Canadian towns ten years ago, when it had only 4,000 population, has moved up to the tenth place, between Halifax and St. John, N. B.

### KELOWNA BRANCH

H. G. PANGMAN :: :: Manager

## Local and Personal News

Mr. K. MacLaren went East on Monday to spend the winter.

Mr. E. C. Creagh was a passenger to Vancouver on Saturday for a week's visit.

Mr. J. F. Burne left on Friday to pay a visit to England after an absence of some twenty years.

Mr. C. G. Prowse left on Monday for Montreal, where he intends to spend the next three months.

Mr. Donald McEachern went to Winnipeg yesterday to attend college.

Monday next, Oct. 30th, will be observed as Thanksgiving Day throughout Canada.

Mr. Chas. Clarke, C. P. R. agent, is enjoying a well-earned holiday. Mr. H. T. Meugens is acting as relieving agent.

Have you registered yet as a municipal voter? Only four more days. The list closes at 5 p.m., Tuesday, Oct. 21st.

The "Okanagan" did not arrive until 7.15 p.m. on Friday, the S. & O. train being three hours late and no supply of coal available until its arrival.

Mr. E. R. Bailey is adding a second storey to his Post Office building. Entrance will be effected by means of the stairway in the Belgo-Canadian block adjoining.

The Fire Brigade boys propose to hold their annual ball on Friday, December 15th. The war canoe and lacrosse clubs are co-operating and it hoped to make the ball one of the most successful ever held in Kelowna.

Mr. C. R. Phinney, of the staff of the Royal Bank, has been transferred to Vancouver, leaving for his new post on Monday. His place here has been taken by Mr. Nightingale, who arrived from Vancouver on Friday.

The contract for erection of the new public school at Black Mountain has been awarded by the provincial Public Works Department to Mr. J. H. Middleton, of Kelowna. The cost of the building is stated in the Victoria "Colonist" as about \$7,000.

The Young Girls' White Shield Society will hold a social at the home of Mrs. Cornelius Martin, Richter St., on Tuesday evening, Halloween. A good program is arranged for. A collection will be taken in aid of the Girls' Rescue Home. All are welcome.—Con.

The Kelowna Benevolent Society are re-organizing for the coming winter and will hold their first meeting, for the election of officers and other business, at the residence of Mrs. Philip, on Thursday, Nov. 2nd, at 8.30 p.m. All ladies interested are cordially invited to attend.—Con.

Mr. J. S. Reekie came up from the Coast on Thursday and spent a few days here, combining business with pleasure. He is president of the Municipal Construction Co., which is engaged in the manufacture of wooden pipe and also has large contracts for installing water mains and other forms of municipal work.

Commencing with Wednesday next, Nov. 1st, the Public School will be opened on the winter schedule, at 9.30 a.m. Parents are requested to note the change of hour so as not to send their children too early, as the janitor has strict orders not to open the doors before 9.15. The afternoon session will be from 1.30 to 3.30 p.m.

Mr. D. H. Rattenbury has made several sales of real estate within the past few days. The largest transfer was that of the old Lequime block with 50 feet frontage on Bernard Avenue, owned jointly by Mr. E. M. Carruthers and Messrs. Hewetson & Mantle, to ex-Alderman Joseph Mannion, of Vancouver, and his daughter, Mrs. Christie. The consideration was \$10,000. The purchasers were touring through the Okanagan and had no intention of investing, but they were so delighted with Kelowna and its surroundings that they could not resist the opportunities offered. Mr. Mannion is one of the few aged pioneers of British Columbia that have been born in the province. Other sales include a corner lot on Richter St. to Miss Elizabeth Johnston, of London, Ont., and a 10-acre bearing orchard on the K. L. O. Bench, formerly owned by Mr. Gordon Stirling, to Mr. T. P. Bacon, of Montreal.

BORN.—To the wife of Mr. H. D. Weatherhill, on Oct. 17th, a son.

BORN.—To the wife of Mr. J. G. Reeves, on Oct. 24th, a daughter.

Mrs. Ranks went to Victoria on Saturday.

Mr. H. H. MacLeay was a passenger to Lethbridge this morning.

Mr. J. W. Jones and daughter returned from Vancouver on Tuesday.

Dr. McPherson left for Revelstoke on Tuesday, and will probably not return to Kelowna. He finds the climate of this district is too healthful to provide practice for more than a limited number of medical men, and he will seek another field.

Mr. H. G. G. Wilson, of the Canadian Bank of Commerce, who is relieving Mr. H. G. Pangman here at present, has resigned his position and will go into partnership with Messrs. Hewetson & Mantle, real estate and insurance agents, before the end of the year. Mr. Wilson has already made many friends, who will be delighted to learn that he is to become a permanent resident of Kelowna.

We are advised by the Seattle agency of the White Star line that the s.s. "Olympic," which was rammed by the British war vessel "Hawk" soon after leaving Southampton on Sept. 19th, and has since been undergoing repairs at Belfast, will definitely sail from Southampton on Nov. 29th, and from New York on Dec. 9th, and on schedule dates thereafter.

Visitors to the valley speak in terms of unrestrained admiration of the delightful fall weather experienced with almost unbroken continuity for the past two months. Steel blue skies and dazzling sunshine make existence a delight, while the crisp nights of the past two weeks fill the morning air with invigorating freshness. No wonder the people of the Okanagan are proud of their climate, which cannot be excelled in a northern latitude.

In addition to the list of prizes published in last week's issue of the "Courier," the Bankhead Orchard Co. won at the New Westminster exhibition a special prize for the best collection of winter pears, not less than five varieties; first prize, \$10, for the best packed four boxes of pears, and second prize, \$7.50, for the best packed four boxes of apples. The total number of prizes won by the Bankhead Orchard Co. was 45, including 31 firsts, 9 seconds and 5 thirds; total value, \$219.00.

Local Conservatives will banquet the Hon. Martin Burrell, Minister of Agriculture, in the Opera House, on Thursday evening, Nov. 2nd. The Vernon faithful have announced their intention of joining forces with Kelowna in honouring the new Minister, and will not hold any banquet of their own. Several speakers of note from the Coast and other points will probably be in attendance, but it is the avowed intention of the entertainers not to make the banquet the occasion of a political demonstration, and they will welcome the presence of Liberals, whose feelings they will spare—consistent, we presume, with a restrained and decent amount of jubilation.

At the request of the Vernon Board of Trade, we insert the following paragraph from the "Vernon News": "F. G. Molnais, who has charge for the Board of Trade of the apple shipments to the Old Country for Christmas presents, reports that already arrangements have been made for about 450 boxes. Most of these are supplied by the shippers, but some are purchased direct from the Board. Any person desirous of taking advantage of this opportunity of sending apples to friends in Great Britain or the continent, should notify Mr. Molnais at once, as the shipment will leave on November 1st. He expects to have sufficient orders to fill two cars."

### BUSINESS LOCALS

Dr. Mathison, dentist. Telephone 89.

The deferred parliamentary election in the Yukon, held on Monday, has resulted in the defeat of the late member, Mr. F. T. Congdon, by the Conservative candidate, Dr. Thompson, by a majority of about 400. Dr. Thompson represented the Yukon in a former parliament, sitting as an independent. The gain of the seat increases the Conservative majority in the House of Commons to 51.

## NEWS OF THE PROVINCE

A large co-operative store is to be established shortly in Nanaimo.

Salmon Arm residents are taking steps toward securing incorporation as a city.

The coast cities are disappointed with the census returns and will probably take another count of their population in the near future.

An all-B. C. Rugby team, composed of Vancouver and Victoria cranks, left for California on Saturday to play a series of matches with the universities of that state.

Henry Jones, who was arrested some time ago in New Westminster, for the murder of his wife, has received the death sentence. The date fixed for his execution is Dec. 5th.

Thus far 57 miles of track have been laid on the Kettle River Valley line, out of the total of 141 miles provided for. Regular train service will shortly be inaugurated between Merritt and Osoyoos.

The new C. P. R. steamer for service on the West Arm of Kootenay lake is designed on lines similar to those of the Bonnington, and will make the 52 miles between termini in two and a half hours or less.

The work of grading a section of the E. & N. railway's east coast extension for fully 40 miles, lying between McBride Junction, where the A. B. line leaves the main road, and a point beyond Union Bay, has been awarded to the Westhorne Lumber company, one of Victoria's most enterprising contracting firms.

In a recent interview, Mr. Kennedy, engineer in charge of the Great Northern surveys, stated that he had two parties in the field surveying the grade of the line through the Hope Mountains, and that their work will soon be completed. They expect to get down to the Fraser Valley on a two per cent. grade and will complete the line to the Coast in two years' time. The road is going to be very expensive. There will be many short tunnels. These will not be absolutely necessary, but they will save the construction of snowsheds, and as these cost at least \$60 a running foot, and have to be renewed, it is better to put in tunnels where it can be advantageously done. Later, Mr. Kennedy says, the great seven-mile tunnel, which will reduce the grade to one per cent., will be put in, how soon will depend upon circumstances.

Sir John Barker, Bart., of The Grange, near Storrington, England, has purchased for a syndicate of seven British capitalists 27 miles of forest land on Vancouver Island containing a billion cubic feet of timber.

Mr. H. H. Stevens, Vancouver's member elect, will make a strong effort to restrict the operations in British Columbia of Japanese fishermen, and also to have Vancouver made a national port.

The deer and other animals in Stanley Park, Vancouver, are being killed off by some predatory beast not yet identified. It is supposed to be either a cougar or a bear. Thus far five deer have been destroyed.

Increasing traffic in liquor to the Indians is reported all along the coast and Magistrate Shaw of Vancouver has announced that hereafter everyone convicted before him of selling liquor to the natives will be assessed the maximum penalties.

The Canadian Northern Railway has awarded to Messrs. Waddell and Harrington, civil engineers, of Kansas City, a contract for designing and superintending the construction of ten steel bridges along the route between Cisco and Kamloops. Their total cost will amount to about \$1,100,000.

New, commodious and comfortable headquarters for the cricketers of Victoria are contemplated. It is proposed by the officials of the Victoria club to secure nine acres of level and cleared land, with a beautiful outlook on the gulf, and altogether suitable for conversion into playing grounds and as a site for a handsome club house.

The log supply held in reserve for the winter by the logging camps and mills on the coast of British Columbia, including both Vancouver Island and the mainland, is the largest in four years, according to figures secured by Mr. G. D. McKay, Provincial Timber Inspector. No less than 250,000,000 feet, log measure, of logs is stored for winter milling, in other words, over 25 per cent. of the year's output, which was just under one billion feet. It is necessary for the mills to have a large supply of stock on hand at all times, due to the uncertainty of an even log supply, but particularly so during the months of November, December and January, while the mills are running full handed. The amount of logs stored for this winter's use is the largest in the history of the province, with the exception of 1907, which was the record year.

Cranbrook will soon have a manual training school.

Ground is being cleared on Burrard Inlet for the erection of a thousand barrel oil refinery for the Segar Oil Refineries, Ltd.

Early in the coming month a new addition to British Columbia journalism is to be made with the first appearance of the "Agricultural Journal of British Columbia," of which C. B. S. Phelan, late sub-editor of the "Cape Times," South Africa, is to be managing editor, and C. Devonshire, late manager of the "Farmers' Advocate," in the Orange Free State, sub-editor. Experts of the Department of Agriculture are to be permitted to contribute to the columns of the new journal, which it is promised will be conducted on strictly non-political lines.

A tract of 350 acres, situated on the Skeena River, just to the south of its junction with the Bulkley has been purchased by the Grand Trunk Pacific Railway Company for town-site purposes. As it is only about a mile and a half from the old town-site of Hazelton, it will be called South Hazelton, and with the consent of the citizens of the present town of Hazelton, may by an enabling bill become known in a few months by the name of Hazelton smpy. The citizens of the present Hazelton have intimated their intention of moving to the new town-site, which will be situated on the railway, and will be connected with the old town by a bridge across the Bulkley.

In 1909 Ontario produced more than twice the value of lumber manufactured in British Columbia, but last year the amount returned for the two provinces was practically the same. Statistics for 1911 will probably place British Columbia in an assured position in relation to the lumber output of the respective provinces. The constantly enlarging prairie market, the growing demand for British Columbia fir in the markets of the world, and the promising outlook for a great extension of trade upon the completion of the Panama Canal are combining to create a tremendous interest in the vast forest wealth of the province and are leading to the investment of millions of foreign capital in lumber lands and mills. In a very few years it is probable that the lumber output of British Columbia will exceed the combined output of all the other provinces of the Dominion, while in the production of pulp it will be a close competitor of Quebec and New Brunswick.

## NEWS OF THE DOMINION

By a mistake of the British mint the words "dei gratia" are left off Canadian coins of 1911.

A bad freight wreck occurred last Thursday on the C. N. R. at Ralston Man. The line was blocked for a day.

Snow fell at Portage, Morden and several points in southern Manitoba. It will have a very bad effect on threshing.

Hon. Mackenzie King has been offered two Liberal seats and will probably come back to the Commons with Graham and Fielding next session.

Mr. George Gordon, M.P. for Nipissing, will vacate his seat for the purpose of making way for Hon. Frank Cochrane. He will be given some nominal office, so as to create the vacancy at once. Mr. Gordon's statement is that he has held all along that New Ontario should be represented in the cabinet, and that his act of abnegation will open the way.

The Canadian Pacific Railway Co. announces that they will spend over five million dollars in hotel extension and rebuilding. Practically the whole system from the Atlantic to the Pacific Ocean is having extensive extensions and alterations made and the improvements include the splendid new hotel now being erected at Calgary.

Prince Edward Island, with a population of 98,722, has been losing nearly a thousand a year of her people during the last decade. The population is almost purely agricultural, and the change means that there are at least eight per cent. fewer people on the land in the province than there were ten years ago. Yet it is certain that the Prince Edward Island farmers never received such high prices for their produce, or have been more prosperous than they are to-day.

Hon. George E. Foster, the new minister of trade and commerce, had an interview on Friday with Sir William Grey Wilson, governor of the Bahamas, when the question of the relations between Canada and the Bahamas was cordially discussed. The Bahamas are really anxious to enter into closer relations with the Dominion, the islands having been on several occasions hard hit by changes in the United States tariff. The people are intensely loyal to the Empire and would willingly accept an arrangement which would strengthen their connection therewith.

The government steamer *Minto* arrived in Halifax last Friday from Hudson's Bay, where her crew spent the summer. Considerable survey work was done.

It was announced last Friday that Johnny Howard, the famous defence player of the New Westminster lacrosse team, had received a handsome offer from the Toronto lacrosse team and had accepted it.

The number of United States settlers who have come across the border into Canada this year is greater than last year, according to the figures compiled by the Canadian Northern Railway. In 1910, 65,269 entered Canada, while this year the figures are 66,974.

The municipal telephone system of Saskatoon, Sask., has been sold to the provincial government for \$73,000. Hon. J. A. Coder, minister of telephones, has visited the system and has arranged to make a number of improvements.

By the help of Scotland Yard officials, Winnipeg police have run down a gigantic swindle affecting Winnipeg, Calgary and Vancouver. Charles Warren, a former conductor, is under arrest at Winnipeg. Among his effects was found a receipt for printing the tickets in London.

Approximately three thousand miles of new railroad lines have been put under contract this year in the Dominion of Canada, which is more than ever before in the history of the country. Up to July, 1,400 miles of new lines had been put under contract this year, and since that time another 1,519 miles have been added.

The report of the Dominion Forestry Branch, issued recently, shows that, by statements received from 2,768 firms, nearly five billion feet of lumber were cut during 1910 throughout the nine provinces of Canada, the total value of the product being nearly seventy-eight million dollars. This is an increase of about fifteen millions of dollars on the 1909 cut.

Secret service officers of Canada are watching for the source from which counterfeit four dollar bills are being sent into Canada from the United States. The four dollar note is an easy one to counterfeit, according to officers of the immigration department, and they are constantly meeting with bogus ones in their work along the border. The counterfeit bills which are being circulated are carried into Canada by innocent-looking people, and are then put into circulation.
